

# Meme Analysis Report

Generated on: 3/5/2025, 9:52:39 PM

## Introduction

This report provides an in-depth analysis of the top trending memes, including popularity trends, engagement metrics, format distribution, sentiment analysis, and keyword insights. The goal is to understand meme culture and user engagement based on Reddit data.

## Top Voted Memes

Note: Downvotes show 0, but Upvote\_ratio is not 100%. The discrepancy exists in the Reddit API itself.

The table below highlights the top 20 memes based on total upvotes. These memes received the highest engagement and represent the most popular trends within the selected timeframe.

Rank	Title	Author	Upvotes	Downvotes	Ratio	Comments
1	<a href="#">Well thanks</a>	Obvious-Reputation48	28050	0	0.96	155

14	<a href="#">Help. I can't stop</a>	TREXIBALL	1303	0	0.97	44
15	<a href="#">Gamers and types of games they play.</a>	Full-Call1570	1285	0	0.90	106
16	<a href="#">strange... but sure. 0=Þ¶0&lt;ßû</a>	FL4SH-	1277	0	0.94	15
17	<a href="#">That's a fetish right there</a>	Lazy_raichu36	1194	0	0.90	73
18	<a href="#">Don't you dare speak just sit and stare</a>	MahmoudAO	851	0	0.97	25
19	<a href="#">Every damn time</a>	Puzzleheaded_Cap_220	551	0	0.96	6
20	<a href="#">this fr how it felt 0=Þ¶0&lt;ßû</a>	egyptiantouristt	344	0	0.98	4

## Ranked Meme Creators

This table ranks creators based on total upvotes, comments, and post count. It highlights the most influential meme makers in the dataset.

Rank	Author	Total Upvotes	Total Comments	Post Count
1	Obvious-Reputation48	28050	155	1
2	wcslater	20364	75	1
3	OnePunchClam	7619	105	1
4	Flimsy-Secret-6187	5586	403	1
5	HealthyMolasses8199	4108	73	1
6	IntelligentAd5616	3974	76	1
7	FL4SH-	3916	26	2
8	Ali_Classic	3200	56	1
9	TREXIBALL	2918	66	2
10	KiwiProfessional4140	2041	21	1
11	KSzust	1844	4	1
12	Equivalent-Gap4474	1815	40	1
13	Yaughl	1701	34	1
14	Full-Call1570	1285	106	1
15	Lazy_raichu36	1194	73	1
16	MahmoudAO	851	25	1
17	Puzzleheaded_Cap_220	551	6	1
18	egyptiantouristt	344	4	1

## Top Keywords Extracted

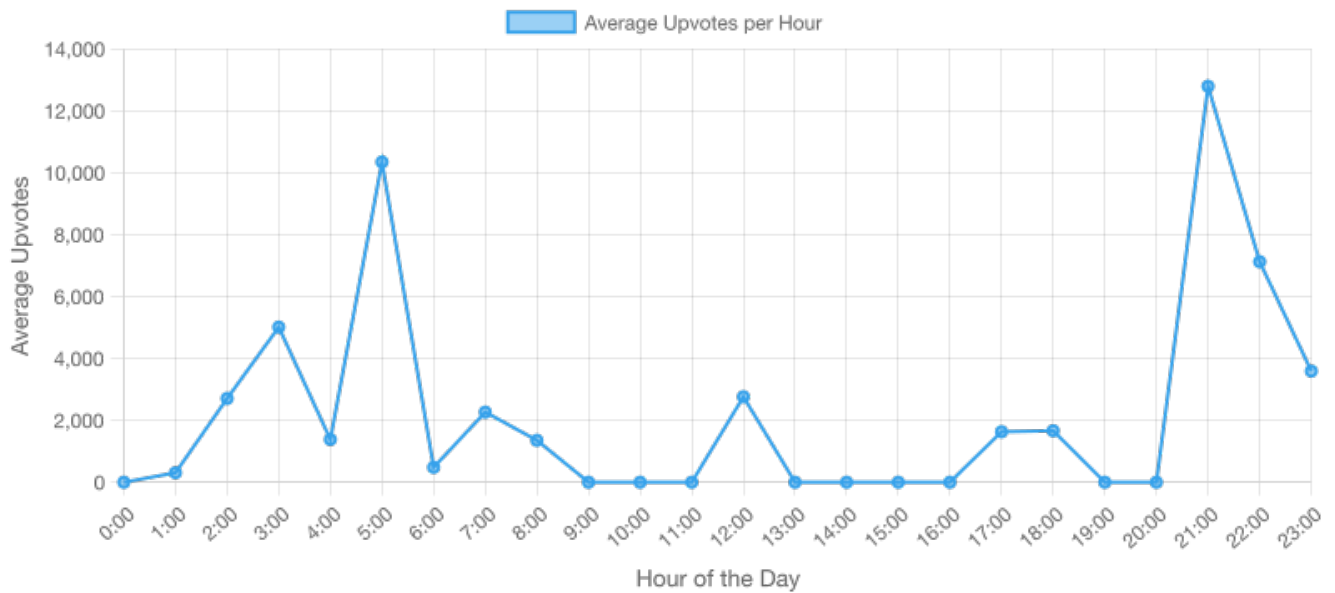

The following table presents the most frequently used words in meme captions and image text. These keywords provide insights into common themes and trending topics in memes.

Keyword	Count
Photo caption	8
Happiness	6
Facial expression	5
Internet meme	4
Animation	3
Line art	3
Film	3
Love	2
Screenshot	2
Cup	2

## Meme Timestamp Distribution

This graph shows when memes were posted throughout the day. It helps identify peak meme activity hours and the best times to post for maximum engagement.

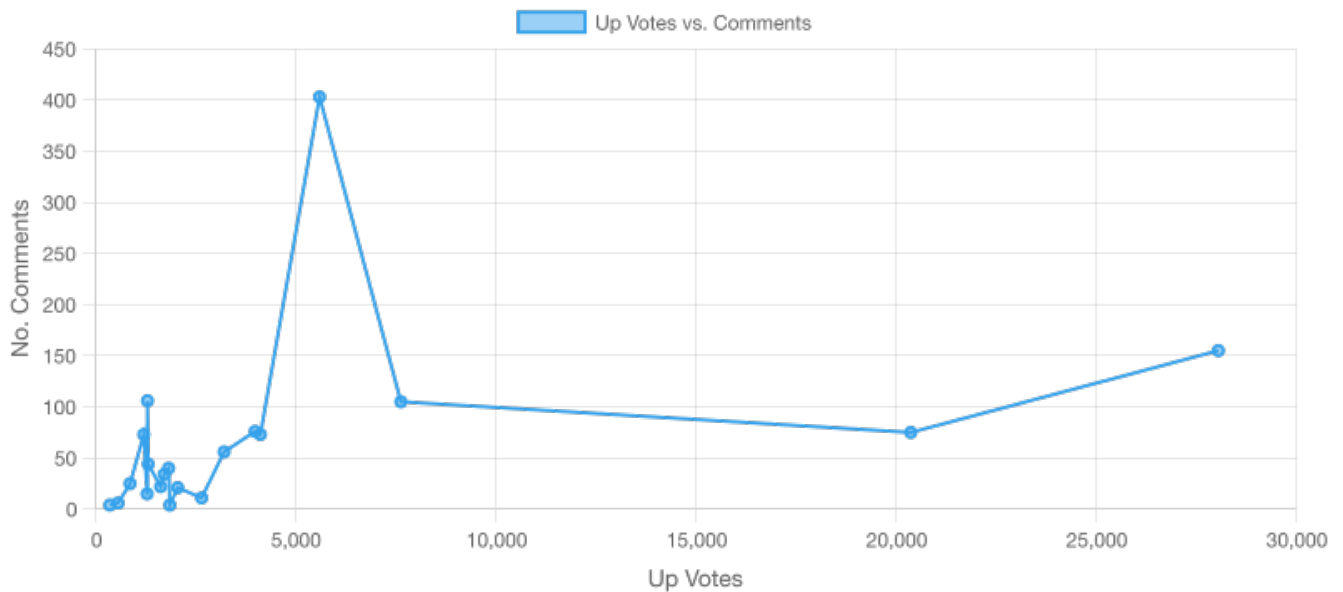

Hourly Average Upvotes (Last 24 Hours)

## Comments vs. Upvotes

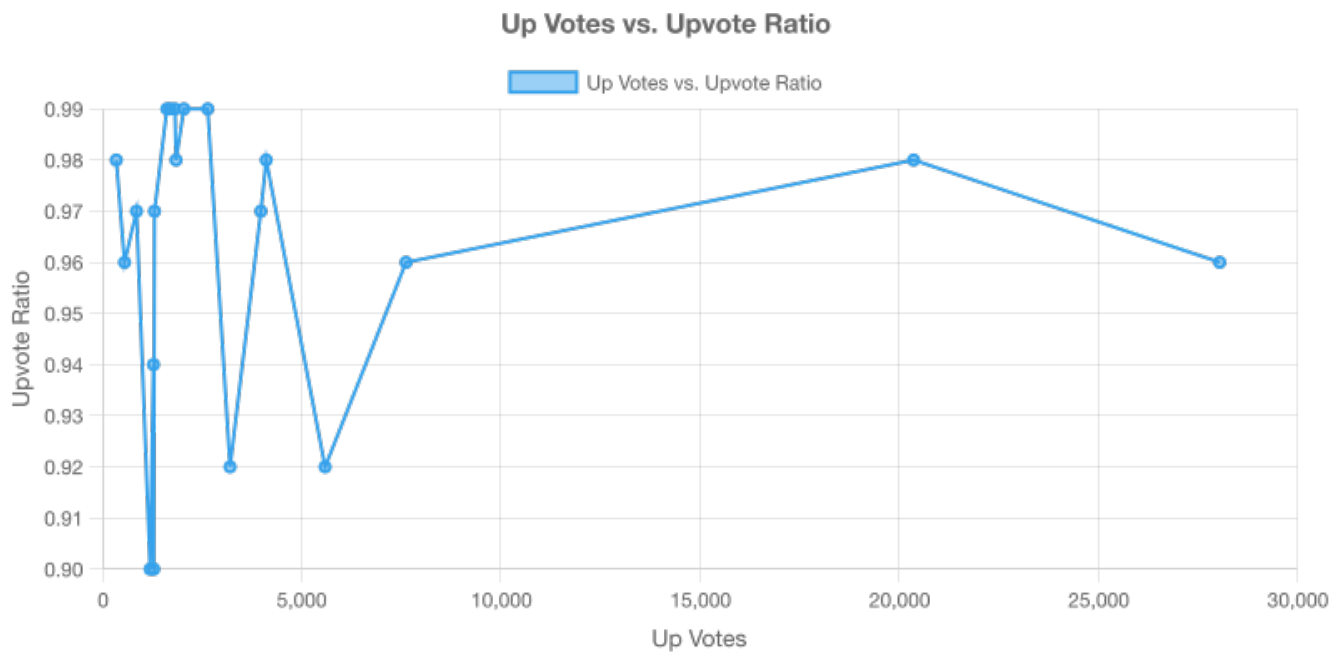

This graph explores the relationship between upvotes and comments. It helps determine if highly upvoted memes also attract more discussion, indicating higher engagement.

Up Votes vs. Comments

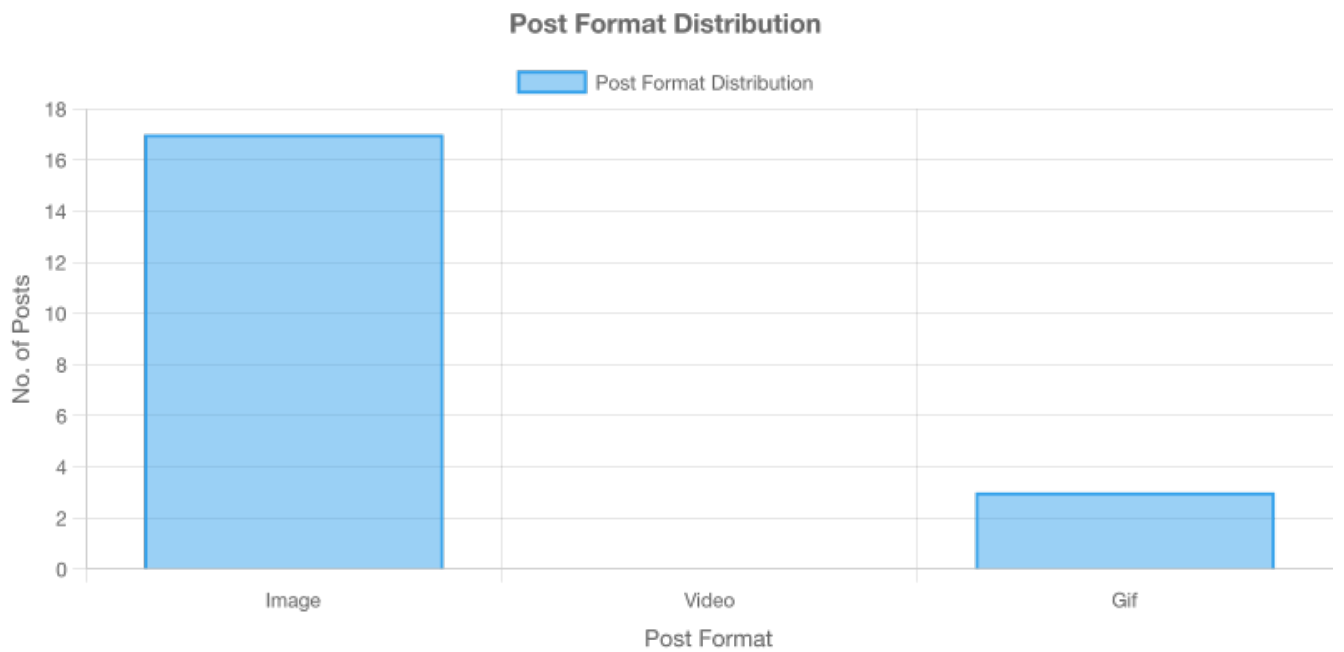

## Votes vs. Upvote Ratio

This graph compares total votes (upvotes + downvotes) against the upvote ratio. It helps determine if highly voted memes are well-received or controversial.

### Post Format Distribution

This graph categorizes memes into different formats (images, videos, GIFs). It helps track which meme formats are most popular and how users engage with different media types.

### Sentiment Distribution

This graph categorizes memes based on sentiment (positive, neutral, negative). It helps analyze whether trending memes are uplifting, controversial, or neutral in tone.

Sentiment vs. Average Upvotes
